DENTIST RECEIVES NATIONAL INVISALIGN AWARD

At the 2017 Align General Practitioners' Summit, Dr. Robert J. Asp of Live Life Smiling Family Dentistry was presented an award for his excellence in patient treatment using Invisalign invisible orthodontics. Dr. Asp took first place in the spacing category of the Invisalign Case Shootout competition. This was the fifth consecutive Summit Dr. Asp had been voted a finalist in the competition; which is judged by his 1,500 peers and colleagues in attendance.

The Shootout is a national forum comparing the finished orthodontic cases of dentists who provide Invisalign services. Over 350 cases were submitted for consideration in four separate categories: crowding, spacing, interdisciplinary, and teen. The requirements for submitting a case include: impressive before and after records, excellent dentistry in combination with tooth alignment, less invasive approaches to esthetic solutions, improvements to overall oral health, function and stability, and rewarding patient stories.

If you'd be interested in learning more about Invisalign and how Dr. Asp's expertise can help you, call today to schedule a free consultation. Visit www.llsmiling.com to learn more about current Invisalign specials as well as Live Life Smiling's licensed therapy dog services.
